Professional Summary

Full Stack Developer with 5+ years building web applications, ERP systems and API integrations in production (Dominican Republic, United States, Peru). Main stack: JavaScript, TypeScript, React, Node.js, SQL (PostgreSQL) and REST APIs. Delivered 12+ applications, 5 published plugins and 20+ third-party integrations, including DGII electronic invoicing (e-CF).

Technical Skills

- Frontend: JavaScript, TypeScript, React, Next.js, Angular, HTML, CSS, Tailwind CSS, Vite, Flutter
- Backend: Node.js, Python, Convex, Supabase, PL/pgSQL
- Databases: PostgreSQL, SQL, Supabase, Convex
- APIs & Integration: REST API, webhooks, DGII e-CF electronic invoicing, Stripe, WhatsApp Business API (Meta), Slack, Zoho, Calendly, Oracle NetSuite, SAP, Odoo, n8n, Make, Zapier
- Tools & Cloud: Git, Docker, Cloudflare Workers and Pages, Google Cloud Run, Playwright, Vitest, Bubble.io, Claude Code, MCP
- Practices: Spec-Driven Development (SDD), Domain-Driven Design (DDD), Object-Oriented Programming (OOP), SOLID, Test-Driven Development (TDD), Continuous Integration / Continuous Delivery (CI/CD), AI-assisted development

Professional Experience

Senior Integrator and Full Stack Developer — Boosty Digital / Spatium

Nov 2022 – Jun 2026 | Santo Domingo, Dominican Republic (hybrid)

- Built the internal ERP for corporate offices and coworking (spaces, bookings, memberships, billing): React and TypeScript frontend, Node.js and PostgreSQL backend, used daily at 2 locations.
- Integrated DGII electronic invoicing (e-CF): issuing, signing and sending fiscal documents from the ERP through the government REST API.
- Automated business processes with n8n, Make and AI agents connected to the ERP [ADD METRIC: hours saved per week].

Software Developer — Delphi One

Mar 2024 – Jan 2025 | United States (remote)

- Developed new modules for the platform, from database design to user interface, and ran quality assurance (QA) on each release.
- Built an AI agent that automated an internal workflow [ADD METRIC: time reduced].

Software Developer (contract) — Planix

Jan 2024 – Jul 2024 | Dominican Republic (remote)

- Developed and maintained a national B2B procurement portal, with database design and new low-code modules.
- Integrated the portal with enterprise resource planning (ERP) systems: Oracle NetSuite, SAP, Odoo, Exactus and Infor.

Software Developer (contract) — Mkt Nativo

Sep 2023 – Jan 2024 | Mexico (remote)

- Designed databases, developed low-code digital products for the agency's clients and integrated their marketing tools.

Bubble.io Developer — Kreante

Mar 2021 – Nov 2022 | Peru (remote)

- Developed 12+ web and mobile applications for clients in the United States, France, Peru and the Dominican Republic.
- Built and published 5 plugins on the Bubble marketplace (WhatsApp Meta, MyZap, Google Drive, LinkedIn, NowPayments).
- Integrated Stripe, Slack, Zoho, Calendly and EasyBroker via REST APIs; automated processes with Make and Zapier.

Projects

- FHG Distribuidora ERP — Wholesale distributor ERP: installment sales, receivables, cash closing, inventory and reports. React, TypeScript, Supabase, PL/pgSQL, Playwright. 440+ commits.
- Sandov Structure (structure.sandov.ai) — Structural engineering platform with a 3D finite element engine, ACI 318 / AISC 360 checks, AI advisor and PDF reports. React, Convex, Cloudflare Workers.
- EstimaPro (estimapro-rd.pages.dev) — Construction estimates with AI blueprint scanning and supplier quotes. React, Convex.

Education

- Software Development Technician — INFOTEP, Dominican Republic
- Certificates: Claude Code LLM (Vanderbilt University); Machine Learning Fundamentals, Google Cloud Platform, No-Code Developer Bubble.io (Platzi)

Languages

- Spanish — Native. English — Intermediate (B1/B2).
